

Chubb safes

CHUBB SAFES SURVIVAFILE

In case of fire.....

Survivafile takes the heat. Choose between 1 or 2 hour fire resistance (with impact protection).

Keep your vital information secured against severe fires.

Many companies do not survive after a fire because they lose business-critical information. Keep vital documents, ledgers, records, etc secure in a Survivafile and protect the things your insurance cannot.

You can choose from 1 or 2 hour fire endurance according to UL 72 Class 350 or the new Pan European ECB-S test.
